In this series of bi-monthly webinars, various ICMIF members from around the world showcase their digital strategy and journey in the pursuit of digital transformation. Learn how leading mutual/cooperative insurers are harnessing the power of technologies to digitise their business and integrate digitalisation and innovation into their overall strategy, whilst maintaining their unique value proposition and member driven focus.

Creating value through embedding sustainability
Embedding sustainability across an organisation requires commitment and innovation. The Co-operators (Canada) developed their first sustainability strategy just over a decade ago and in 2015, formally began to integrate and embed sustainability in their corporate strategy. This webinar explores the business impact of embedding sustainability organisation-wide, creating economic, social and environmental value for the organisation.

Millennials driving change
Embedding innovation into business strategy and organisational culture is critical for insurers to survive and thrive in today’s fast-changing world. In this webinar, three Young Leaders from ICMIF members share how millennial-focused initiatives at their respective organisations are driving innovation and transformational change across the whole business.

Leveraging the start-up ecosystem to spark innovation
As InsurTech start-up firms rapidly enter the insurance sector, their potential to disrupt the insurance ecosystem could also revolutionise value creation within the industry. In order to embrace this change, many insurers are looking to invest in or partner with start-ups to leverage the new opportunities offered. In this ICMIF webinar, two mutual insurers share their journey of collaboration within the start-up ecosystem.

A mutual’s role in the future of rural insurance
This webinar shares how mutuality strategically advantages FMG in the New Zealand rural insurance markets, based on research used in FMG’s strategic planning by evaluating the impact of past, present and future macro environmental forces. This thought-provoking research will share their perspectives on what the future holds for insurance and expected impacts for farmers, growers and rural communities.

Zero to Hero: How Länsförsäkringar became the largest cyber insurance underwriter in northern Europe
ICMIF member Länsförsäkringar was the first insurer to include cyber and data protection insurance as standard across large portions of their Swedish SME portfolio. Hear how Länsförsäkringar and their team of underwriters, reinsurers and service providers who implemented this strategy overcame the challenges they faced and how they kept mutual values at the heart of their thinking.
