Achmea aims to contribute to a healthy, safe and future proof society, at home and abroad

We have defined social impact goals and integrated them in our new strategy 2025

HEALTHY

SAFE

FUTURE PROOF

Good health within everyone's reach

Clean, safe and smart mobility

Safe and sustainable home and living environments

Carefree entrepreneurship and being a good employer

Financial solutions for today, tomorrow and years to come

2025

3 GOOD HEALTH AND WELL-BEING

11 SUSTAINABLE CITIES AND COMMUNITIES

13 CLIMATE ACTION

Based on extensive stakeholder dialogue, we have chosen 3 key SDGs to excel at...

3 GOOD HEALTH
AND WELL-BEING

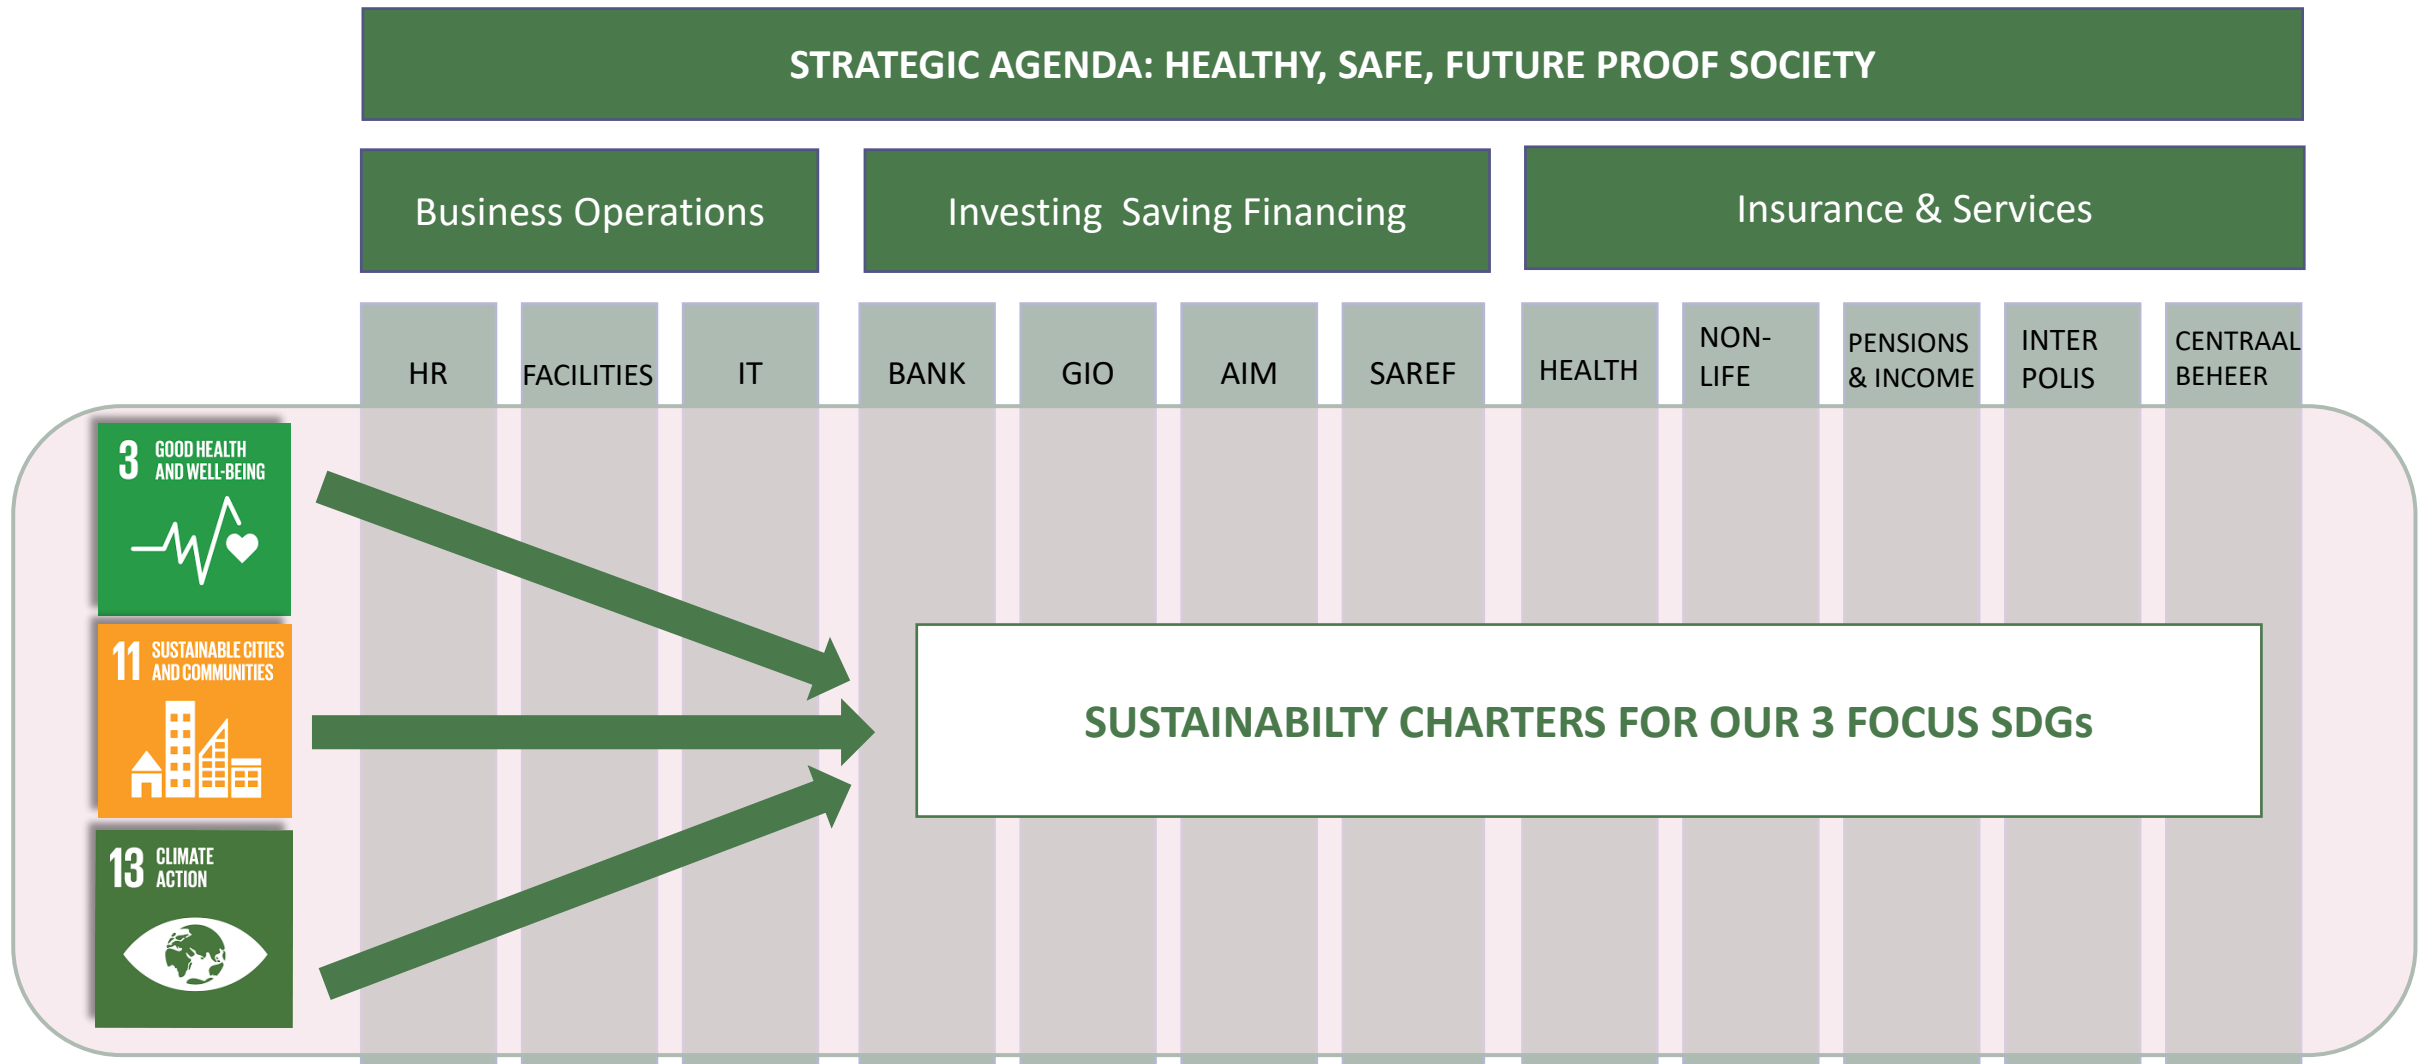

11 SUSTAINABLE CITIES
AND COMMUNITIES

13 CLIMATE
ACTION

... and embedded sustainability in our core activities

...whilst making it a priority in our actions

Example: Charter Climate & Energy Transition

WHY?

Disastrous climate change

HOW?

Adaptation & mitigation

WHAT?

Goals for all

"The BlueLabel website also gives tips on how to prevent flooding"

847 : the average amount of precipitation every year, in millimetres, in the Netherlands

2018: a very dry year, with just 607mm precipitation
18.9 DEGREES C: the average temperature in the summer of 2018 (the warmest since 1901)
26+27 JULY 2018: the KNMI issued its first-ever amber weather alerts, because of the heat

"Blood pressure and heart rate parameters are sent via an app"

A person in a yellow shirt and black shorts is running on a paved bridge. The bridge has blue railings and a white line on the road. In the background, there are trees and a cloudy sky. A semi-transparent white box in the top left corner contains text about cardiovascular disease statistics in the Netherlands. A quote in the bottom right corner states: "Blood pressure and heart rate parameters are sent via an app".

Thank you for your attention.
